

Sunday Watch on BPN Radio  
 15th January 2017  
**Who or what is Man?**  
**Christian Basics Sessions**  
 Is Man evolved or created? by Michael Schenborn  
 The big question of who is Man? Evolution verses Creation!!!

---

---

---

---

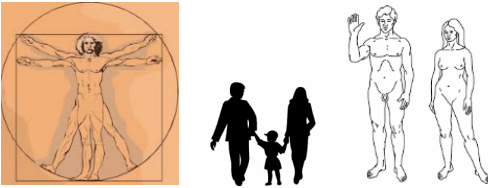

---

---

---

## Christian Basics

Part 2

**Who and what is man?**  
**Created or Evolved?**

---

---

---

---

---

---

---

## Big questions to ask:

- Who are we?
- What are we?
- Where do we come from?
- Where are we going to?
- What is wrong with us?

---

---

---

---

---

---

---

## Two fundamental views:

- **Secular View:**

- post modernistic
- product of chance
- product of "Nature"
- evolutionary process
- survival of the fittest
- responsibility to oneself
- no destiny, no purpose

---

---

---

---

---

---

---

## Two Fundamental Views

- **Religious View:**

- created by a creator
- origin and destiny determined by the Creator
- answerable to the Creator
- responsibility to find out our destiny
- purpose in life
- purpose after life

---

---

---

---

---

---

---

## Darwinism

- **Darwinism** is a theory of biological evolution developed by the English naturalist Charles **Darwin** (1809-1882) and others, stating that all species of organisms arise and develop through the natural selection of small, inherited variations that increase the individual's ability to compete, survive, and reproduce.

---

---

---

---

---

---

---

## Evolution by Natural Selection

Darwin's theory predicts that over time, the number of individuals that carry advantageous traits will increase in a population

### Step 1 Overproduction

Every population is capable of producing more offspring than can possibly survive.

### Step 2 Variation

Variation exists in every population in the form of inherited traits.

### Step 3 Selection

Based on traits one individual is more likely to survive than another and reproduce.

### Step 4 Adaptation

Over time, those traits that improve the survival and reproduction will become more common.

---

---

---

---

---

---

---

### Paradigm Shift

- Man in the centre
- Success and domination the mantra
- Communism and Fascism utilised Darwinism
- Abdication of responsibility for the sake of progress

---

---

---

---

---

---

---

### Neo-Darwinism

- This is the type of evolutionary theory we have today. It is based on the original ideas of Darwin, but revised with more scientific evidence.
- Darwin's original theory did not account for emergent species, just adaptation to environments.
- Gregor Mendel came up with a mathematical formula that became the basis for evolutionary biology.
- Then, Francis Crick and James Watson worked out the structure of DNA, and how genes are passed on through generations – half DNA from each parent to make NEW COMBINATIONS.
- This natural variety, and random mutations (when something 'goes wrong' in someone's genes and leads to disability or an advantage), make up the changes we see in species over long periods of time. The best changes survive.
- Life itself started with the first molecule of DNA, although scientists do not know how atoms managed to form living cells, and developed through mutations.

---

---

---

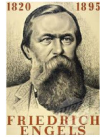

---

---

---

---

## Dialectical Materialism

- is a philosophy of science and nature,
- based on the writings of Karl Marx and Friedrich Engels,
- developed largely in Russia and the Soviet Union.

---

---

---

---

---

---

---

## The Dialectics of Theory & Practice

- Dialectical materialism assumes that our understanding of reality is never perfect or complete.
- But our understanding (our THEORIES) can be improved by testing them in PRACTICE.
- Scientific experiments can test some theories; theories of social change must be tested in the "lab" of social reality—activism.

This dialectical conflict & interaction between theory & practice can improve both & transform reality.

---

---

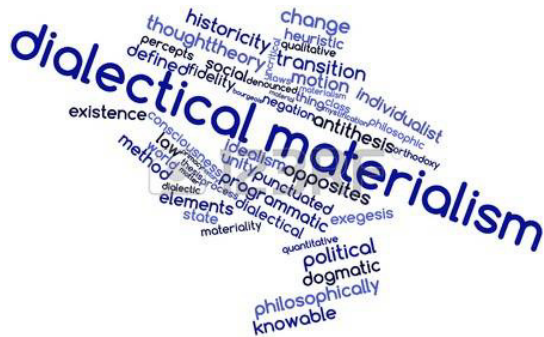

---

---

---

---

---

---

---

---

---

---

---

---

## Evolution – It doesn't work!

- Theory is heavily flawed with evidence contradicting almost every aspect of the theory
- Certain mechanics assumed in the theory have never been proven
- Common sense and mathematics suggest that it is nothing more than a clever tale

---

---

---

---

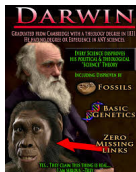

---

---

---

## The Evolutionist's Mantra

- The mantra of evolutionists:  
it's science  
there is no God  
it's nature  
What else, how else?
- The paradigm will not accept any challenge
- challenge = crazy, fanatic, fundamentalist, religious nut, unscientific
- Brainwashing children from early age

---

---

---

---

---

---

---

## Making YOUR blood boil:

If you are an:

- Evolutionist,
- Post Modernist,
- Liberal,
- Pseudo Scientists,
- Aspiring secular Intellectual,
- Brainwashed Student,
- Politically Correct Citizen

---

---

---

---

---

---

---

## You have decided to stay:

**WARNING**

Please make sure  
your blood pressure  
and heart medication  
is within reach!

---

---

---

---

---

---

---

## The Evolution Paradigm

Evolution is:

- not empirical science
- based on assumptions
- based on academic consensus
- demanding conformity (counter scientific)
- history of faked evidence (Piltdown, Nebraska)
- faith based
- not holding up to scrutiny
- only strength is manufactured consensus
- facts do not support the theory

---

---

---

---

---

---

---

## The Spanner into the Works

- No transitional species found
- No proof for spontaneous start of life
- irreducible complexity
- Observable reality of mutations
- Timelines do not work
- Common sense and simple logic defy Neo Darwinism
- There are a 100 ways to shatter the illusion of evolution

---

---

---

---

---

---

---

## Example of Information and Design

- Many ways to deal with the myth of evolution
- We will look at just one method
- Logic, simple deduction and common sense will illustrate the fallacy

---

---

---

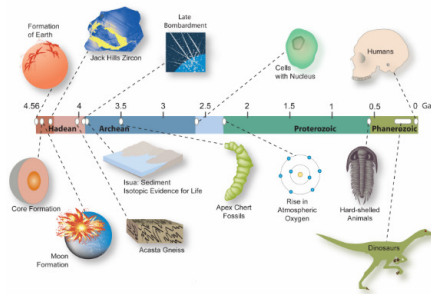

---

---

---

---

## What do they tell us?

---

---

---

---

---

---

---

---

---

---

---

---

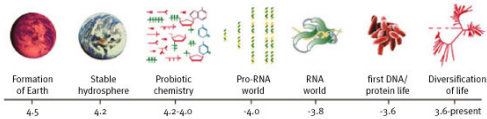

---

---

---

---

---

---

---

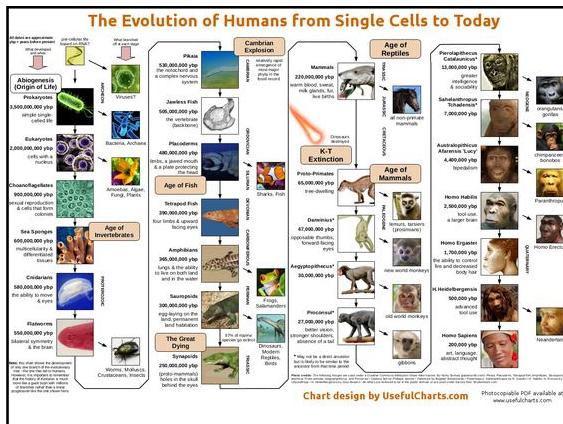

---

---

---

---

---

---

---

---

---

---

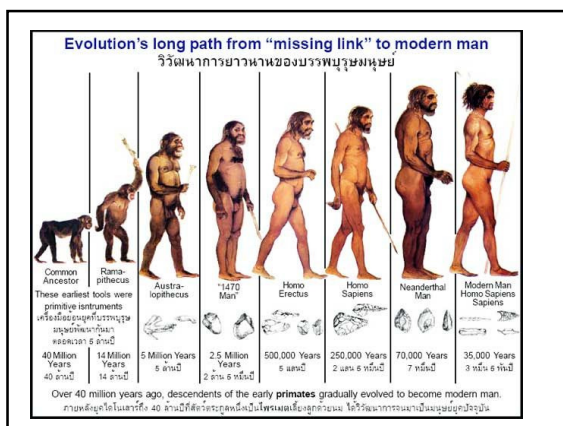

---

---

---

---

---

## Assumptions by Evolutionists:

- 4.8 billion for the earth
- 2 billion formation of life
- Monkey to Man - 40 million years
- Gene pool in organisms increase constantly
- Life began with a single cell organism

---

---

---

---

---

---

---

---

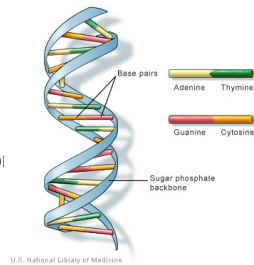

---

---

## Genetics Crash Course

- DNA
- 4 chemical bases
- 4 letters
- Contains all information
- 3 billion base pairs for humans
- Info to build body
- 100 Trillion Cells

---

---

---

---

---

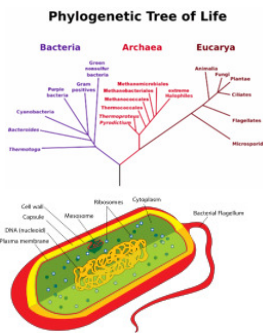

---

---

## The “lowest form of Life”

### Assumptions by evolutionists:

- It all began with simple organisms
- They through a process of evolution moved to higher forms of life
- At the end of this process stands man

---

---

---

---

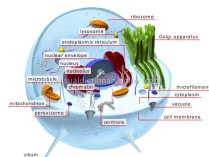

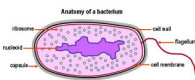

---

---

---

## Minimum requirements for a small organism/bacteria

- find and take in food
- digest food
- store energy and utilise the energy it has derived from the food
- process and excrete waste
- grow to maturity
- replicate itself
- restart the cycle

---

---

---

---

---

---

---

### Eukaryote

Membrane-enclosed nucleus  
Nucleolus  
Mitochondrion  
Ribosomes  
Cell Membrane

### Prokaryote

Nucleoid  
Capsule  
Flagellum  
Cell Wall (made of peptidoglycan)

The number of nucleotide base pairs in the prokaryotic chromosome:

- 160,000 to 12.2 million for different species
- Letters in the Bible: 3.5million (about 4MB ~ 40Mbits)

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

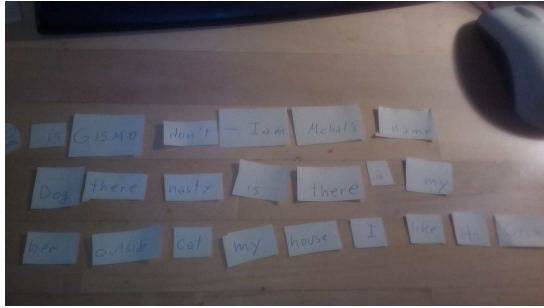

---

---

---

---

---

### Gismo – not quite advanced on the evolutionary scale

- He cannot write
- He cannot speak
- He understands the word “Cat”
- And he doesn't like them

---

---

---

---

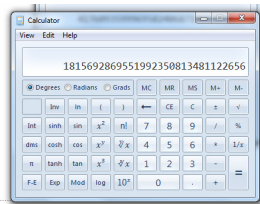

---

---

---

### Probability to get 23 signs in the correct order:

- A big number
- Possible combinations are mad
- Conclusion:  
no designer  
no chance!!!!
- No intelligence  
no life

---

---

---

---

---

---

---

### What about Man?

- Monkey to man – 40 million years
- Differences in genome from Man and Monkey: 43 million DNA base pairs
- 1 pair year
- Observed trans species genetic evolutionary processes: “0”
- Reduction in gene pool observed but no expansion

---

---

---

---

---

---

---

## Genetic Similarities

- Man 100% - 0.1% within the species
- Monkey – 96%
- Pig – 98%
- Mouse – 99% (97.5%)
- Pumpkin – 75%
- Cabbage – 49%
- Gismo – 84%

---

---

---

---

---

---

---

## Conclusions:

- Timeframe doesn't work
- Evolution without external design: impossible
- Life had to start with intelligence
- Biblical narrative more credible than pseudo scientific attempt to eliminate God
- Common sense and mathematical logic dictate evolution does not work!!!!

---

---

---

---

---

---

---
